

BROOKING

— ANGUS RANCH —

Open Book Invitational ^{ch. 13}
LIVE SALE 4PM ON OCT. 25, 2025

Welcome

TO OUR PROGRAM

We warmly welcome you to please join us for our 13th Annual Open Book Invitational Sale! We take great pride in how this event has evolved and the achievements it has celebrated over the years. This sale has become a premier opportunity not only to evaluate and acquire leading genetics but also to enjoy a vibrant Angus social gathering. That's why we've chosen to continue a traditional live auction format, where every animal comes through the ring. We've cherished the lively atmosphere that this sale brings, and we invite you to experience it for yourself on Saturday, October 25.

We're in a thrilling era for Angus cattle and the beef industry. Seriously, the prices we're seeing are history-making and it is a rewarding time to be in the beef industry. The market for high-quality livestock has never been this promising, so it's the perfect moment to evaluate and elevate your herd. Now's the time to take action—cull those less-than-stellar cows and replace them with top-tier genetics that will boost your profitability and success.

As a family-operated business, our entire livelihood revolves around our cattle. This commitment drives us to build and nurture an exceptional cowherd capable of producing sought-after genetics. Our goal is to create value for our customers while providing our family with the fulfilling life we cherish. While we are a family operation, we are grateful for the support we receive throughout the year from many dedicated individuals. Your contributions are invaluable, and though the list is long, you know who you are, and we thank you sincerely.

This year, we are proud to showcase a fantastic group of consignors who have consigned an excellent offering. We want to thank our customers for their unwavering support. As our family and operation grow, we find ourselves busier than ever with sports, school activities, junior shows and ranch responsibilities. While we wish we could visit every customer, our schedules sometimes limit our ability to do so. Nonetheless, we deeply appreciate each one of you who has supported this sale.

We hope to see you on sale day! Make sure to stay for a steak supper and fellowship. If you can't make it, rest assured that our exceptional sales staff will be on hand to assist you with any needs you may have.

SALE LOCATION

At the ranch Radville, SK. From Radville go 8km west until Rg Rd 185. Then go North 4.4 km. We are on east side. From Ceylon go 14.6 km east until Rg Rd 185 then go North 4.4 km. We are on east side. We are an hour south of Regina International Airport.

SHOW RIGHTS

Brooking Angus Ranch reserves the rights to show any of the heifers at Canadian Western Agribition. Contact Justin on which ones we are thinking of showing.

CUSTOMER PARTNERSHIP PROGRAM

Progeny from females purchased through Brooking sales are eligible to sell in future Brooking Angus Ranch production sales. Contact Justin for details.

JUNIORS

All calendar year heifers in the sale are halter broke. However, they are suitable for different age and experience. Contact Justin on which ones would be suitable especially for the first time showman.

DELIVERY

Brooking will assist in coordination of delivery and get heifers to central points within a 300km radius of Radville. All heifers can be delivered to Agribition. US purchases: Brooking will provide necessary health papers and deliver to a central point in North Dakota. All Juniors and their families that purchase are welcome to come to the ranch and we can assist you in a workshop that covers all aspects of the showing-feeding, daily hair care, showmanship, grooming and clipping.

Live Sale 4PM CST
BROOKING ANGUS RANCH - RADVILLE, SK

Welcome from SALES MANAGEMENT

On behalf of our Bohrson Marketing team, we are excited to welcome you back to the Brooking Angus Ranch Open Book Invitational. In some ways it is hard to believe that this is already the 13th Edition of this sale - but in other ways, when you think back to all the high quality females that have come through this event, it sure does get to be an extensive list. This has grown to be an annual highlight on the Angus calendar in Canada and across the globe. We sure hope you can join us near Radville, SK for another prestigious event on October 25, 2025.

The Open Book Invitational is more than just a sale, it is a showcase of elite Angus genetics and a testament to the dedication, vision, and breeding philosophy of the Brooking program and their customers. Each year, this sale sets the standard for quality and consistency, and 2025 will be no exception. Whether you're a seasoned breeder or a progressive newcomer to the Angus business, this offering is designed to elevate programs and fuel long-term success.

This year's lineup is as powerful and progressive as we've ever seen—featuring the elite heifer calves this sale has become known for along with the annually deep set of bred heifers and exclusive embryo matings that represent the absolute top of the breed. An exciting highlight for 2025 is a feature donor cow that is still young but already has a proven flush history. These females have been meticulously selected not only for their individual merit but also for their high quality, unique genetics.

Over the years, the Open Book Invitational has become synonymous with success, with countless past lots going on to become influential donors, show champions, and cornerstone females in leading herds across North America. One of the really cool things is the consignor group, both new and those that consign every year, that are part of the fabric of this event and bring their best to be part of the success and excitement.

We encourage you to join us in person at the ranch on October 25, where the hospitality is as genuine as the cattle are elite. For those unable to attend, we at BMS are proud to know these cattle intimately and are happy to assist you with any part of your selection process. The sale will also be broadcast live on DLMS.ca, so one way or another we will see you at Brooking Angus Ranch for a memorable day in the Angus business.

Best Regards,

The Bohrson Marketing Team

a program that produces banners *every single year.*

We are very excited to announce we will be doing another donation heifer. We are going to give away one of our top end heifers to a junior between the ages of 8-18. To win the heifer, an entry needs to be purchased in the name of a junior that is an active member of 4-H or a junior association and is a Canadian citizen. We will draw a name and that lucky junior owns this heifer! 7 more names will also be drawn and they will receive up to \$2000 bursary to purchase a heifer (heifer calf or bred heifer) from any breeder, (purebred or commercial) in Canada. Proof of purchase is required. The funds will be transferred directly to the seller of the heifer. Purchase must be made by December 31, 2026.

A maximum of 140 entries for \$100 each will be on offer and all of the money raised will be donated directly back to our junior's future herds! You may purchase more than one entry per junior but can only win once. If you have been lucky enough to have won the heifer in previous years you are not eligible to participate.

ENTRIES MUST BE PURCHASED BY OCT. 24/25. WINNERS WILL BE ANNOUNCED ON FACEBOOK LIVE SATURDAY, OCTOBER 25TH BEFORE THE SALE.

This heifer is the same quality you can expect of all our sale heifers. To purchase an entry, you can either email us at brookingangus@outlook.com, text/call at 306-861-4155 or PM on Facebook.

Thank you for all the support
\$75,000 has been given back to these juniors & junior organizations by
funds raised from the last 7 years of donation heifers.

+2.1	+63	+108	+23	+0.88	+3.0	+4.0

We are extremely proud that, over the past decade, the females selected for the Lot One position have consistently gone on to achieve remarkable success. We believe Brooking Royal Lass 5156 is the kind of female who will uphold that tradition.

On individual appraisal, she exemplifies the ideal in both type and kind. We admire her beautiful head, balanced structure, level hip, deep flank, added substance, and strong maternal presence. Her dam is one of our absolute favourite young cows—a true standout. With her attractive, alert expression, broody maternal look, massive rib shape, wide hip, strong udder, and captivating athleticism, she is nearly without equal.

A maternal sister, Brooking Royal Lass 4207, sold at last year's sale for \$70,000 to a group of elite breeders from Mexico and Argentina—El Sauz, San Martín, Tres Marías, and Resolano. She went on to win her division at Agribition, the Lady Elaine Bracket show, and was named Supreme Champion Female at Young Ranchmen's.

Brooking Madame Pride 5025 will no doubt have a lineup of friends come sale day—just like her sister in last year’s event. If you appreciate heifers that combine rib shape and dimension with extra bone, ideal teat placement, striking eye appeal, and a stout, powerful build, this female deserves your attention. A maternal sister commanded \$70,000 in last year’s sale, selling to Stormy River Ranch. Her dam is a shared cow with Roger Reynolds and was purchased from the renowned Schaff Angus Valley program. SAV Madame Pride 8037 continues to impress every visitor to the ranch with her mass, fleshing ability, ideal udder structure, soundness, fertility, and overall productivity. The Emerald daughters are developing into tremendous brood cows, and Brooking Madame Pride 5025 follows that same path. If you’re in search of a future donor with elite maternal potential, make sure this heifer is marked in your catalog.

+2.4	+59	+112	+18	+0.78	+2.0	+6.0

When Poplar Meadows Angus hosted their major cowherd reduction sale, there was one female we knew we had to own. In partnership with Coleman Angus and Canadian Donors, we secured PM Juanada 101'19 as the high-selling lot of the event. We are strong believers in Natural Law, and PM Juanada 101'19 embodies the kind of cow that has made him a household name in the Angus breed. Brooking Juanada 5044 follows that same mold—well made, level-topped, deep-bodied, and deep-flanked, all complemented by an ideal Angus head. The Emerald x Natural Law mating has been an outstanding combination for us, and we fully expect this heifer to carry on that same tradition of quality and performance.

An absolute genetic treasure. Soo Line Rose 1019 has been a cornerstone female for Brooking — a true production powerhouse responsible for many of our high sellers and influential breeding pieces. We sadly lost Rose 1019 this past August at 14 years of age, marking the end of an incredible era in our program. With that in mind, this may very well be the last daughter of Rose 1019 we will ever offer. Sired by the exciting outcross sire Hummel Argentine, this female represents a rare and valuable opportunity — a true sale highlight with genetics that have stood the test of time.

+4.6	+71	+118	+20		-3.0	+2.0

I really like this heifer — she’s our kind. WFL Black Ruby 5505N is a true powerhouse, yet remains attractive and feminine in her design. I admire her head and the way she naturally carries it high. She’s bold and big-ribbed, wide-hipped, long-bodied, and blessed with that soft, easy look complemented by great hair. Her dam is an easy-fleshing, deep-bodied, good-uddered female with extra power and mass. Golden Oak Preacher 333L, the sire acquired by Westway Farms for \$70,000, continues to stamp his progeny with consistency and style. Heifers like WFL Black Ruby 5505N have the look and quality to be competitive in the show ring, but more importantly, they possess the maternal strength and structural integrity to become truly potent breeding pieces.

We always strive to offer an exceptional and varied lineup of heifers in this sale, and this year is no exception. We selected two outstanding females to represent SAV Theory in the heifer calf section — and they are truly the productive kind. Our Theory progeny continue to impress with their extra length, muscle shape, straight top lines, structural integrity, hoof quality, and maternal presence. The dam, Blairs Instinct 762D, is a model Angus female — angular-fronted, good-footed, nicely uddered, heavy milking, and beautifully wedge-shaped. A maternal brother, Brooking Headliner, was a past Lot 1 and the high-selling bull in our 2023 sale, commanding strong attention and selling to W Sunrise. These genetics represent proven performance, maternal quality, and long-term value — the kind that consistently move a program forward.

An absolutely stacked maternal and proven pedigree — it truly doesn't get much better than this. Sired by SAV Theory (Territory x 9969 x Net Worth x EXT) and backed by a Renovation x Motive x Right Time dam, this female is built on foundation genetics that have stood the test of time. Brooking Annie 5062 is long-bodied, straight-topped, and designed with true maternal function. Her dam ranks among the most eye-appealing and best-uddered Renovation daughters on the ranch — a picture of balance and productivity. A quick walk through the bull pen will show just how dominant Theory has been in our program — his sons are consistent, impressive, and speak for themselves. It's easy to see why we're using him so heavily.

+2.9	+64	+111	+15		+0.0	-3.0

Schwan Miss Annie 5040 is a striking, eye-catching female with all the right pieces. She is exceptionally long from end to end, deep-bodied, and displays ideal teat size and placement — all wrapped up in a quiet, docile temperament. We've always admired SAV Anthem, especially seeing him as a mature bull roaming the hills at Schaffs — he's an impressive specimen. His dam, SAV Madame Pride 3145, is regarded by many as one of the most beautiful Angus females in existence, and it's no surprise that the Anthem daughters and flush sisters are turning heads for their quality and consistency. Adding even more strength to the pedigree, the grandam, Brooking Annie 307, was the Lot 1 female in our first-ever female sale and has since proven herself as an incredible donor in production. This heifer blends elite phenotype, maternal power, and proven lineage — a combination built for long-term success.

+2.5	+54	+86	+21	+0.9	+2.5	+2.0

The Schwan family has a long-standing reputation for bringing some of their very best to this sale — and this year, they've outdone themselves. When I toured their program this past summer, it was clear they had the strongest calf crop I've seen yet. Without question, this is the best consignment we've ever received from them. This Blair's External Law daughter is a standout — stout-featured, bold-bodied, and powerfully constructed, yet she carries herself with that unmistakable Angus femininity and style. Her dam, Brooking Annie 307, purchased from our very first female sale, has become a cornerstone donor in the Schwan herd and continues to anchor their program with consistency and quality. With External Law semen increasingly scarce in Canada — and his daughters now proving themselves in production — this female represents a rare and valuable opportunity. Don't miss the chance to add a future donor candidate with elite genetics and proven maternal strength to your herd.

We are excited to offer the first ET daughter of the \$100,000 half-interest female Brooking Beauty 1266, who sold in our 10th Anniversary Sale to Steven Knutson and Rideau Angus. Beauty 1266 is a maternal sister to the great breeding bull Brooking Emerald 9179, and she continues to build on the strength of this powerhouse cow family. Brooking Beauty 1266 enjoyed an exceptional show career, earning numerous Grand and Supreme Championships along the way. She is an exceptionally angular-made female with a beautiful head, an ideal udder, and massive rib dimension. Now in production, she is proving herself as highly productive — generating several elite ET progeny, while her natural bull calf ranks among the heaviest weaned this year and will be on display sale day. Brooking Beauty 5215 carries all the style, structure, and presence to compete at a high level, backed by the proven cow family strength to build a lasting legacy for years to come.

Gustafson Blackcap May 5073N is an impressive daughter of the ever-popular Blair's External Law 266F — and she's the kind you'll love to have in your herd. This female is moderate framed, deep ribbed, and level hiped, with the kind of dimension and balance that never go out of style. What truly sets her apart is her disposition — she is hands down the quietest heifer in the sale. If temperament is at the top of your list, especially for a junior or first-time showperson, this is the one you'll want to take home. And as if that weren't enough, she's backed by one of the most iconic and profitable cow families in the entire Angus breed. Style, structure, substance, and attitude — this Blackcap May has it all.

Our good friends at Grass Roots Ranch have truly stepped up with this powerful consignment! This heifer is bold in her design, stands on extra bone, carries great hair, and is stout-topped with the kind of look that grabs your attention and holds it. Her dam, DK Tibbie 170J, was a standout feature in our 10th Anniversary Sale — admired for her striking presence, structural soundness, beautiful udder, gentle nature, and added substance. The strength runs deep in this pedigree, as the grandam, PM Tibbie 216'15, was a top-selling feature in the Family Matters Sale. The Tibbie cow family continues to produce at the highest level — a maternal brother to DK Tibbie 170J commanded \$97,500 in the Rusylvia Bull Sale, and another maternal sister, Brooking Tibbie 4076, also sells in this event. This heifer blends pedigree power, phenotype, and proven performance — the kind that defines elite Angus breeding programs.

Canadian Donors have built a reputation for investing in only the best females in the business, so you can be confident in the quality behind this young dam. CD Pure Pride 5551 is a daughter of Brooking Radville, who continues to establish himself as a breed leader for siring beautifully made, highly functional females. CD Pure Pride 5551 is a perfect example of that legacy — attractive in her design, strong-topped, soft and easy-fleshing, and blessed with the feminine head and balance that define the Pure Pride line. This is the kind of female that combines eye appeal with real-world function — the kind every program can build around.

CD Pure Pride 5559 is another impressive Radville daughter that brings power and presence to the offering. She is bold in her rib shape, square-hipped, and level-topped, combining substance with a feminine, balanced design. Like her sister, she has that signature Radville look — eye-catching, correct, and built to last. This heifer has the kind of structural integrity and natural mass that will transition effortlessly from the show ring to the cow herd. Backed by proven Canadian Donors genetics, CD Pure Pride 5559 represents the kind of female that delivers both performance and pedigree value — the kind every serious program strives to own.

Gutzke Tilda 507N is a striking, high-profiling female with a silhouette made for the backdrop. This March-born daughter of Blacklist is the kind that stops you in your tracks — deep-ribbed, level-hipped, clean-fronted, and designed with balance and style throughout. Her dam is a classic Bank Note daughter — the kind we’ve come to expect: good-footed, beautifully uddered, well-made, and consistently productive. The strength continues on the bottom side, as the grandam ranks among the elite cows at Gutzke Ranch, known for her quality and maternal power. Tilda 507N blends pedigree, presence, and performance.

You can bet there'll be a lineup of kids dragging their parents over to check out this heifer — and for good reason! She's the kind that makes showing cattle fun. Soft, fuzzy hair, well-made, easy-fleshing, and full of personality — she's got the look that turns heads and the disposition everyone wants. True to the program, Gutzke Ranch continues to deliver the kind of cattle that work in the real world — functional, fault-free, and flat-out good. That's exactly how you'd describe Wiwa Creek Bellemere 1709 — practical enough for the pasture, pretty enough for the backdrop, and the kind that'll make a junior's eyes light up.

We're thrilled that Wiwa Creek entrusted us with their two very best heifer calves for this event — and they did not disappoint! Wiwa Creek Tilda 22'25 is an April-born standout with brood cow written all over her. Her powerful presence, length of body, strong top, and refined teat design all point to a female built for long-term production. She's sired by SAV Theory 2914, a senior herd sire for both Wiwa Creek and Brooking, who has naturally bred an impressive number of cows over the past two years. His dam and paternal granddam rank among the most elite Angus females in the breed, and it's easy to see their influence in this heifer. Tilda 22'25 combines pedigree depth, maternal design, and performance — the kind that not only fits the program but helps shape its future with impact.

An end-of-March heifer with all the right pieces — angular-fronted, long-bodied, and quiet-natured, she's the kind that immediately catches your eye for her balance and design. An impressive calf produced by a two-year-old dam, she showcases early maturity, structure, and style well beyond her age. She's sired by a well-made, smooth-shouldered, and sound-moving bull with extra muscle and shape — a powerful son of the \$85,000 Brooking Next Generation 1038. This heifer combines pedigree, personality, and potential in one stylish package — the kind you'll be proud to have carrying your prefix into the future.

+1.9	+65	+116	+24	+1.05	+5.5	+7.0

Without question, the most famous female ever to graduate from this sale is Bar-E-L Erica 74A. She made history — first selling in our inaugural event for \$9,500 to Blairs.Ag, and later commanding an incredible \$525,000 USD privately. Her record-setting value was no accident; it was built on an unmatched production record and the lasting legacy of her many influential sons and daughters. Now, in true full-circle fashion, the Gustafson family brings us a tremendous granddaughter of Erica 74A, out of a beautifully made Glacier daughter. The dam mirrors the original Erica in all the right ways — the same feminine head, ideal udder quality, and body composition — but with even more length and extension through her frame. And to top it off, Gustafson’s Erica 5011 is one of the first daughters of SAV Courage to sell anywhere. The combination of the iconic Erica cow family and the power and presence of SAV Courage creates a truly unprecedented opportunity — the kind that defines programs and writes the next chapter of Angus history.

Let's just say it took some serious persuasion to get Gustafson's Flora 4125 consigned to this sale — and once you lay eyes on her, you'll understand why. She absolutely stopped me in my tracks when I toured Benji Gustafson's this summer. As a lifelong fan of Density, I was immediately drawn to her maternal design, softness, and presence — she's the kind that makes you confident she'll flat-out work. Then you study her pedigree, and the excitement only builds. She's a daughter of Merit's elite donor, Merit Flora 6078, the dam of Merit Investment and several other high sellers. Females out of Merit Flora 6078 are rarely ever made available, making this offering truly special. Gustafson's Flora 4125 is a fall-born heifer with the kind of maturity and versatility to fit any program — ready to breed into a fall calving group or begin IVF work immediately after the sale. The Gustafson family is retaining a 1/3 embryo interest only, and anyone who's dealt with them knows they're as genuine as they come — great cattle people and would make great partners. A tremendous opportunity to invest in proven genetics and a family you'll be proud to work alongside.

Talk about what maternal looks like. Brooking Bride 5043 is exactly the kind of female we believe great cows should look like at this age — balanced, broody, and beautifully designed. In our 10th Anniversary Sale, we partnered with Coleman Angus and Canadian Donors to acquire Bar-E-L Bride 28C for \$100,000, and her stardom has only continued to rise. Since moving to Coleman Angus, she's become a household name across the Angus breed — admired for her powerful structure, elegant front end, and flawless udder quality. Her influence continues to grow: a flush on Bride 28C recently sold for \$75,000 to Voss Angus, and a flush mate is among our very favourites in the bull pen — sure to be a highlight in our upcoming spring bull sale. Brooking Bride 5043 embodies everything we strive for — maternal strength, structural quality, and the kind of look that defines elite Angus females.

Here's a powerhouse pair of fall-born sisters straight from the top of the Canadian Donors ET program! Sired by the legendary SAV Renovation 6822 — a bull celebrated not only for making elite daughters but also for his influence as a true sire of sires. CD Bride 4670 and CD Bride 4272 are cut from the same mold — long-bodied, easy-fleshing, deep through their center, with ideal teat placement and brood cow shape. They are the kind that combine femininity with function in all the right ways. Their dam, the \$100,000 Bar-E-L Bride 28C, is a household name — owned by Brooking, Coleman Angus, and Canadian Donors — and one of the most admired Natural Law daughters in existence. When you blend that elite maternal heritage with the proven power of Renovation, the result is nothing short of genetic gold. These two sisters are the kind you can build around — style, structure, and maternal excellence all wrapped into one powerful package.

AI BRED TO GREENWOOD STAND ALONE 36M ON APRIL 9. Introducing Brooking Beauty 4149 — an elite sale feature that embodies everything we strive to produce at Brooking. Each year, we make it a tradition to offer one female that truly stings to let go — and this year, Brooking Beauty 4149 is that one. She stands among the very best bred females we've ever sold through this sale. She is the complete package — pretty-headed, massive-bodied, and flawless in her design. Her sire, Brooking Emerald 9179, continues to rewrite the standard for quality across the breed. Emerald progeny are in a league of their own — unmatched in their ability to combine high-end phenotype, power, performance, and udder quality in both sons and daughters. Brooking Beauty 4149 represents Emerald at his finest. Her dam, Brooking Beauty 8059, is a model Angus female — perfect-uddered, productive, and consistent, having raised multiple sons now working in purebred programs. The grandam, TLA Beauty 6R, needs no introduction as the matriarch of the renowned Beauty cow family — one of the most influential in our herd and across the Angus breed. To top it off, Brooking Beauty 4149 is bred early to our exciting new \$77,500 Greenwood Stand Alone 36M. This is one you'll be proud to own — beauty, pedigree, and power all wrapped into one timeless female.

AI BRED TO ELLINGSONS BADLANDS ON APRIL 12 (HEIFER). Brooking Beauty 4069 is a definite sale feature. You'll find her in the display pens. As she is angular-made, holds her head high, and carries impressive depth of body. Her dam, Brooking Beauty 1043 sold half interest in our 10th anniversary sale to ZWT Ranch for \$75,000. She has matured into an absolute treasure. She is loaded with extra muscle dimension and has a monster sized hip on her while being an attractive, angular and maternal female. The grandam, Brooking Beauty 6051 is an incredible female that is the best phenotype female to ever own the Brooking prefix. She is most known as the dam of Emerald and Freedom and a tribe of daughters that are the next generation donors at Brooking.

EXPOSED TO GREENWOOD STAND ALONE 36M AND RIVERFRONT MILESTONE 404M ULTRASOUND BRED ON JUNE 25. A Sale highlight! Brooking Missy Gal 4067 is an absolute powerhouse female very fitting to the type and kind gifted by the Missy Gal cow family. She has huge body capacity with a deep and level underline that transmits depth right from her chest all the way to the back of her flank. In behind her she is wide in her hip and smooth all the way into her forerib. Brooking Missy Gal 4067 has an ideal Angus head with a big muzzle. Long description made short is she is what an efficient and productive Angus female should look like. Her dam, Brooking Missy Gal 8067, is an incredible sight- the most massive ribbed female to ever stand on Brooking soil. The picture of her is when she was just a two-year-old. She's easy-fleshing, straight topped, and as docile as they come. The sire, Brooking Freedom 1031, is a performance leader that is an incredible looking bull joined by a tribe of sisters that will help advance the Angus breed.

EXPOSED TO GREENWOOD STAND ALONE 36M AND RIVERFRONT MILESTONE 404M ULTRASOUND BRED ON JULY 14. Brooking Beauty 4109 has been admired by visitors for her extras. She is extra stout, has extra substance of bone, and extra volume of body. These extras are courtesy of her dam. Brooking Beauty 0024 is a stout made daughter of Renovation with an extra amount of muscle, size, and power. A maternal brother sold to Bar-E-L Angus. The grandam is a donor female and has an impressive group of ET calves this year. Two sons will be part of our show team and will be on display sale day.

AI BRED TO GREENWOOD STAND ALONE 36M ON APRIL 26 (HEIFER). Sired by Ellingson Equity, whom we own with Lewis Farms, and is the bull on the cover of this catalog. He is a maternal and fault-free bull who does nothing wrong. The kind that stand the test of time. Bred early to the \$77,500 Greenwood Stand Alone 36M, whom we admired for his stoutness, sound structure, but mostly because he is out of a great cow, RRD Tibbie 28Z.

EXPOSED TO RIVERFRONT MILESTONE 404M. ULTRASOUND BRED ON MAY 28. Brooking Beauty 4159 is the kind you want your entire replacement pasture to look like. Her dam, Brooking Beauty 2058, has moved into the donor group as she is an impressive female. She is moderate in size yet extremely stout and heavily muscled. She has a brood cow look, is angular in her neck, and is a heavy milker. The grandam is responsible for much of our success and is our number 1 income female.

AI BRED TO PF OKLAHOMA ON APRIL 1. A picture is worth a thousand words, they say. Brooking Beauty 4175 is loaded with an abundance of muscle shape that is carried deep into her hip. She is straight-topped and smooth-made. Her teat placement reads like she will have really nice udder. Which is expected when you analyze all of the females in her pedigree. When we purchased May City, I felt the dam, grandam, and third dam were all some of the best cows at Belvin. On the bottom side, you have the cow family that brought us Emerald and Freedom and many of our top young cows.

AI BRED TO HUMMEL SOUTH AMERICA ON APRIL 11. FLUSHED 6TIMES CONVENTIONAL AT DRI TO AVG 13.6 EMBRYOS PER FLUSH. Brooking Annie K 2091 is a powerhouse female with massive volume, depth, and dimension in every direction. She is bold in her design, soft in her makeup, and exceptionally docile in temperament. This impressive female combines power, balance, and fertility—everything you could ask for in a long-term production cornerstone. Her dam is a striking and highly regarded cow who never fails to catch the eye of visitors to the ranch. The lineage behind her is second to none: her granddam was crowned Supreme Champion at Agribition, and her third dam earned the title of World Angus Forum Champion—proof of the consistency and quality that runs deep in this cow family. Brooking Annie K 2091 sold in our 2023 sale to Morpheus Aberdeen Angus, Cheshire, England, where she was selected as the foundation of a new cow family. With her impressive embryo production, they now have an abundance of embryos for their program and have made the rare decision to offer her back—right in the prime of her life and ready to elevate another herd.

A) 3 EMBRYOS Sired BY COLEMAN GLACIER 041

What more can be said about Brooking Beauty 333? Her track record speaks for itself. With 162 progeny registered to date, she has produced numerous high sellers, but it's her unmatched consistency and quality that truly set her apart. Nearly every calf she has sold has brought five figures or more, a testament to her breeding strength and predictability. But instead of listing off her résumé, let me share a short story. In 2012, we flushed our very first cow, TLA Beauty 6R, in a makeshift setup with a chute we found on Kijiji. The next year, those calves produced our first \$30,000 female and our high-selling bull—and among that flush was Brooking Beauty 333. Since then, 333 has generated well over a million dollars in direct progeny sales and left an immeasurable genetic legacy. What I'm saying is this: sometimes, just a few embryos can change everything for your program.

Brooking Beauty 1043 sold half interest in our 10th Anniversary sale to ZWT Ranch for \$75,000. She has matured into an absolute treasure. She is loaded with extra muscle dimension and has a monster-sized hip on her while being this attractive, angular, and maternal female. She is heavy milking with an excellent udder and has turned heads everywhere she's gone. For those who asked about her after seeing her at Bow Valley—this is your chance to access her genetics.

- A) 3 EMBRYOS SIRED BY BROOKINGTW 4022

Brooking Beauty 8062 is a big and powerful female that is big-topped, deep-ribbed, level-hipped, wide-pinned with extra substance of bone, and has huge fuzzy ears on an ideal Angus head. She has a unique and impressive physical appearance that you can pick her out from across the field. She has been a stellar producer as she had the high-selling bull in three different operations' bull sales in one year. She has also had the second-heaviest weaning bull calf ever to be born at Brooking. How exciting is it to have access to the very first embryos sired by the \$270,000 BrookingTW 4022, sold to ZWT Ranch and Canadian Sires.

B) 3 EMBRYOS Sired by COLEMAN BELOW ZERO 2106

Brooking Beauty 8187 sold half interest for \$80,000 in last year's sale to KT Ranches. She is an absolute standout—visually striking and one of the most unique donor cows you'll find anywhere. She combines overwhelming mass, power, and volume with an elegant, feminine presence. Her world-class udder quality and strong maternal character only add to her appeal. I consider her to be one of the very best Natural Law daughters I've ever seen—a big statement when you consider this program has produced elite females such as Bar-E-L Erica 74A, Bar-E-L Bride 28C, and Brooking Countess 7077. This cow family is built on fertility, function, and production. Her dam, Brooking Beauty 333, has generated over \$1.1 million in revenue, and Brooking Beauty 8187 is well on her way to following in those footsteps. Her most notable son, Rust Forged of Fire, was named Supreme Champion Bull at Farmfair International for KT Ranches. Another son, Brooking Chosen One, was a feature in our 2024 Bull Sale, commanding \$45,000, while a daughter brought \$50,000 in last year's Female Sale and went on to earn the "glitter slap" at Farmfair's Junior Show.

Soo Line Rose 1019 is the very definition of a herdsire factory. Her influence runs deep, with a lineup of powerful sons that have made their mark across the industry. She produced our high-selling bull in 2022, Brooking Next Generation, who sold to Voss Angus, Iowa, for \$85,000 and already has exciting progeny on the ground. Her sons read like a who's who of Brooking genetics—Brooking Major at \$70,000, Brooking Real Estate at \$47,500, Brooking National at \$47,500, Brooking Genesis at \$27,500, and Brooking Revival at \$25,000—not to mention her high-selling and retained daughters that continue to build on her legacy. We sadly lost Soo Line Rose 1019 this past summer at 14 years of age, but her impact will be felt for generations. This offering represents a rare and possibly final opportunity to acquire embryos from one of the most influential and proven donors to ever walk the pastures at Brooking. Don't miss the chance to own a piece of her enduring legacy.

A) 3 EMBRYOS Sired BY BROOKINGTRADITION 4064

Brooking Rose 0083 is our favorite daughter of the legendary Rose 1019, and she embodies everything we strive to create at Brooking. For a young cow, she checks every box—beautifully fronted, massive in depth and volume, square-hipped, correct on her feet and legs, and perfectly balanced from end to end. She has that unmistakable presence that turns heads and the kind of maternal design that ensures longevity and production. Several elite programs have tried to buy her, but we've always believed she is the rightful heir to Rose 1019's legacy—the next step in advancing one of the most powerful cow families in the breed. The heaviest bull calf we have ever weaned at Brooking was a son of Rose 0083, proving her ability to produce with power and performance. Her ET progeny by Emerald and Theory are turning heads this year, showing tremendous promise. A standout Emerald daughter has already won multiple shows this summer and will be campaigned again this coming season. Now, with the added influence of the \$90,000 Brooking Tradition, this mating has the potential to create something truly special—a big-ticket highlight in the making.

A) 3 OR 5 EMBRYOS Sired BY COLEMAN GLACIER 041

Brooking Rose 9076 is an absolutely mouth-watering, dream female—the kind that stops you in your tracks. She is truly rare in her kind, combining world-class femininity, power, and a near-perfect phenotype into one stunning package. Without question, we believe she stands among the very best females to ever carry the Brooking prefix. Her dam, Brooking Rose 201, was one of my all-time favorite cows—a remarkable female we sadly lost too soon. She was a full sister to Rose 1019, and many would argue she was our best donor. That influence shines through in 9076, who consistently transmits the same elite quality, style, and presence that made her cow family famous. Every calf she raises is stamped with that unmistakable Brooking look—powerful, balanced, and uniquely special.

Brooking Rose 9129 is quite possibly our favorite Renovation daughter, and for good reason. She mirrors her dam, Brooking Rose 201, in every way—with that same striking style, femininity, and elegance, combined with an ideal udder and flawless phenotype. Her dam is a full sister to Rose 1019, whose influence has been tremendous, and her maternal sister, Brooking Rose 9076, is another standout in the Rose cow family. We won't part with any of these treasured Rose 201 daughters—the only opportunity to access this bloodline is through embryos. We are especially excited about the mating to Brooking Tradition 4064, the \$90,000 powerhouse who is stout-made, heavily muscled, stands on a strong, well-structured foot, and carries himself with quiet confidence. We believe the combination of Tradition's raw power and Rose 9129's femininity and maternal strength will result in progeny that perfectly blend look, muscle, and production value—a mating loaded with potential and pedigree.

A) 3 OR 5 EMBRYOS Sired BY SAV PANTHER 1906

Brooking Rose 2123 is a new addition to our donor lineup, but anyone who has toured Brooking will no doubt remember her. Sired by the rare and highly popular Brooking Mercury, she is a true power female. While not as angular or refined as some of our other donors, she earns her place in the donor arsenal with her tremendous mass, depth, and substance. Her hip is absolutely massive, with width and dimension that carry deep into her hind leg. She stands on a big, square hoof and boasts a tidy, functional udder, all wrapped in a bold, broody package that commands attention. Mated to the \$350,000 SAV Panther, one of the most talked-about and widely admired sires in the breed today, this combination has the potential to create something truly special—an elite blend of power, presence, and pedigree.

We were thrilled to team up with Coleman Angus and Canadian Donors to purchase Bar-E-L Bride 28C as the high-selling cow in our 10th Anniversary Sale for \$100,000. She's a female I've admired for years, and it was truly exciting to finally own a part of her. Since moving to Coleman Angus in Montana, Bride 28C has only continued to grow in prestige and admiration across the breed. A flush in Bride 28C recently sold for \$75,000 to Voss Angus, further cementing her reputation as one of the most elite Angus females in production today. She is widely considered a model Angus cow—the kind that defines the breed standard for balance, structure, and maternal power. It's been incredible to hear from people who have seen her in person—many say it felt like meeting a celebrity in the Angus world. Be sure to take a close look at her daughters featured in this sale, and don't miss her big-league son making waves in the bull pen.

Lawsons Chloe C815 is a true powerhouse female, recognized across the Angus fraternity worldwide. Valued at \$300,000 with over \$1.8 million in progeny earnings in the Coleman Angus program, she has built a production record that few can rival. She is best known as the dam of the \$750,000-valued Coleman Chloe 9275 and the \$450,000-valued Coleman Triumph, both breed influencers in their own right. Simply put—her production résumé is legendary. Now proudly owned by G2 Cattle Co., the Gustafson family plans to make her a cornerstone donor for their progressive and fast-rising program. Just imagine the possibilities in these embryos, sired by the \$270,000 Brooking TW 4022. The union of the renowned Brooking Countess and Chloe cow families brings together two of the most proven and powerful maternal lineages in the Angus breed. This is a genetic combination loaded with heritage, predictability, and the potential to produce something truly extraordinary.
