BROOKING ANGUS RANCH

Welcome
TO OUR PROGRAM

We warmly welcome you to please join us for our 14th Annual Open Book Invitational Sale! We take great pride in how this event has evolved and the achievements it has celebrated over the years. This sale has become a premier opportunity not only to evaluate and acquire leading genetics but also to enjoy a vibrant Angus social gathering. We've cherished the lively atmosphere that this sale brings, and we invite you to experience it for yourself on Saturday, October 24.

We're in a thrilling era for Angus cattle and the beef industry. Seriously, the prices we're seeing are history-making and it is a rewarding time to be in the beef industry. The market for high-quality livestock has never been this promising, so it's the perfect moment to evaluate and elevate your herd. Now's the time to take action—cull those less-than-stellar cows and replace them with top-tier genetics that will boost your profitability and success.

As a family-operated business, our entire livelihood revolves around our cattle. This commitment drives us to build and nurture an exceptional cowherd capable of producing sought-after genetics. Our goal is to create value for our customers while providing our family with the fulfilling life we cherish. While we are a family operation, we are grateful for the support we receive throughout the year from many dedicated individuals. Our full time employee Riley Strickland fits in reall well with pur family and we appreciate and enjoy the work and time he spends with us. We also rely on many part time and day help throughout the year and your contributions are invaluable, and though the list is long, you know who you are, and we thank you sincerely.

We are extremely proud of the long list of accomplishments and results our customers have achieved with past purchases from this sale. If you study operations across the Angus fraternity you will see heavy positive influence of many past sellers from this sale. It is a fact that we cherish and fuels us to continue our dedictaion to supply superior genetics that work for our customers. We feel we have a strong offering of open heifers, bred heifers and embryo genetic opportuniteis that can satisfy a range of tastebuds. There is some variance in the types of females, sire options and calving dates that almost no matter what you are in search for it is available in this sale.

We hope to see you on sale day! Make sure to stay for a steak supper and fellowship. If you can't make it, rest assured that our exceptional sales staff will be on hand to assist you with any needs you may have.

SALE LOCATION

At the ranch Radville, SK. From Radville go 8km west until Rg Rd 185. Then go North 4.4 km. We are on east side. From Ceylon go 14.6 km east until Rg Rd 185 then go North 4.4 km. We are on east side. We are an hour south of Regina International Airport.

SHOW RIGHTS

Brooking Angus Ranch reserves the rights to show any of the heifers at Canadian Western Agribition. Contact Justin on which ones we are thinking of showing.

CUSTOMER PARTNERSHIP PROGRAM

Progeny from females purchased through Brooking sales are eligible to sell in future Brooking Angus Ranch production sales. Contact Justin for details.

JUNIORS

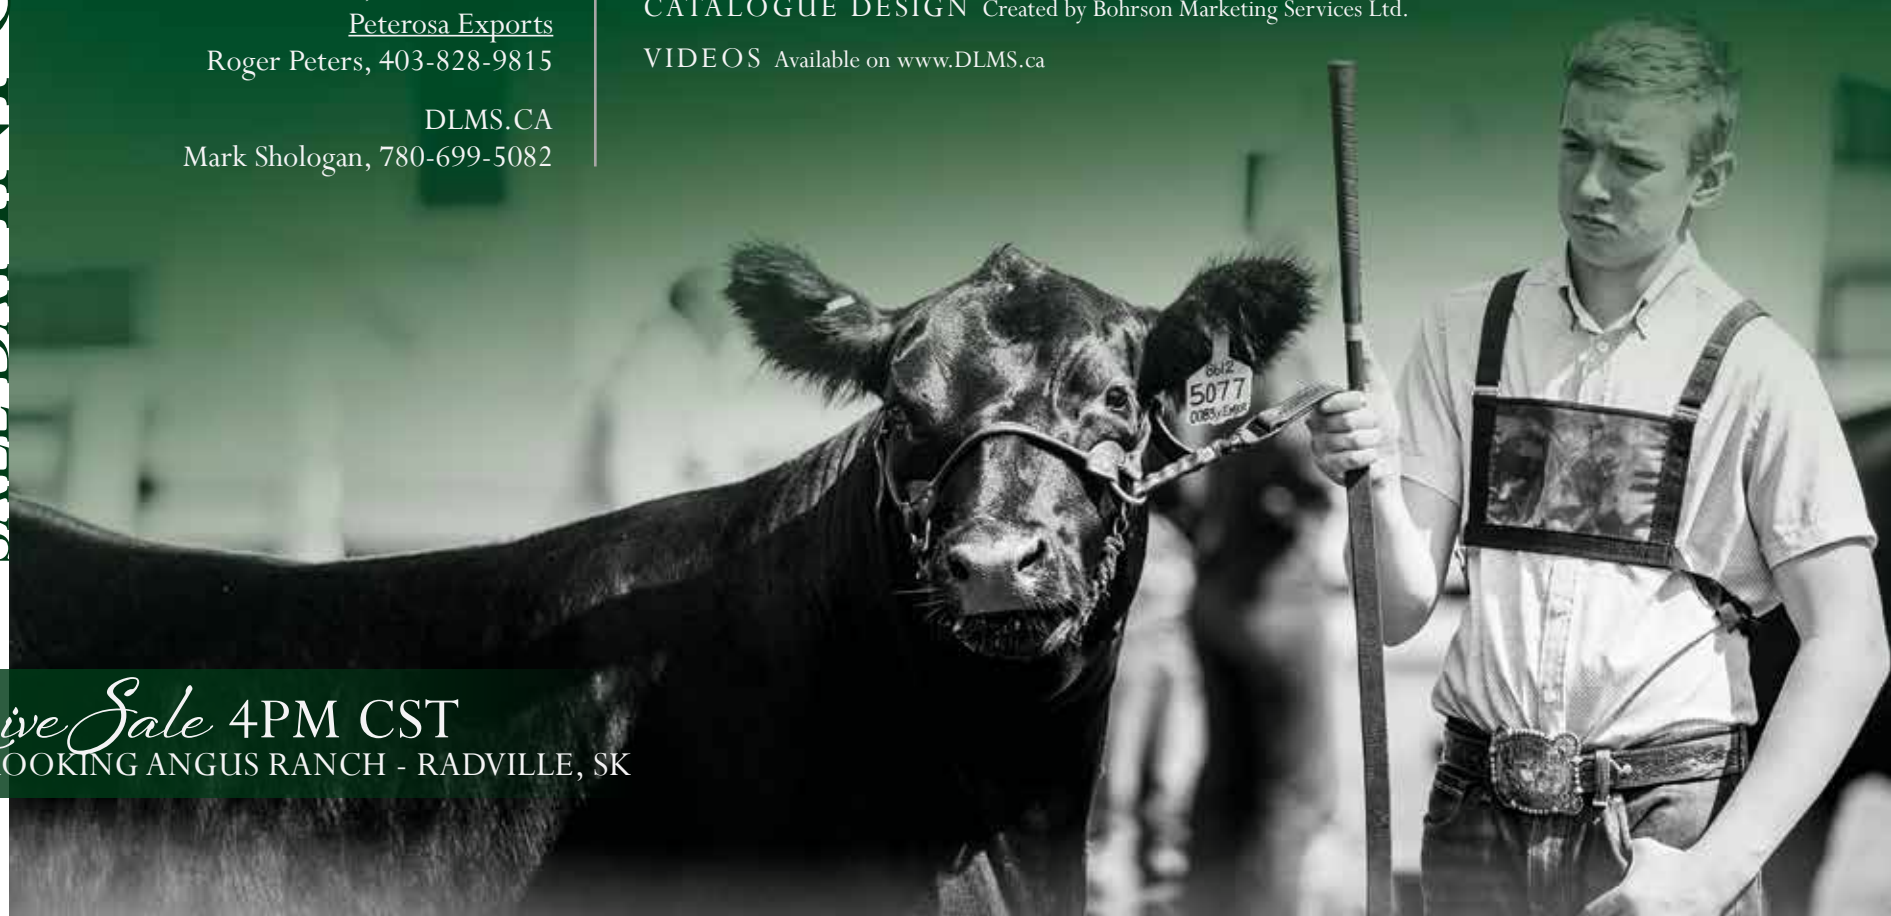

All calender year heifers in the sale are halter broke. However, they are suitable for different age and experience. Contact Justin on which ones would be suitable especially for the first time showman.

DELIVERY

Brooking will assist in coordination of delivery and get heifers to central points within a 300km radius of Radville. All heifers can be delivered to Agribition. US purchases: Brooking will provide necessary health papers and deliver to a central point in North Dakota. All Juniors and their families that purchase are welcome to come to the ranch and we can assist you in a workshop that covers all aspects of the showring-feeding, daily hair care, showmanship, grooming and clipping.

Live Sale 4PM CST
BROOKING ANGUS RANCH - RADVILLE, SK

Welcome from SALES MANAGEMENT

On behalf of the Bohrson Marketing team, it is our privilege to welcome you to the 14th Chapter of the Brooking Angus Ranch Open Book Invitational. What began as an innovative concept has grown into one of the most anticipated female events on the Canadian Angus calendar, and each year the Open Book continues to raise the bar for quality, presentation and opportunity.

There is something special about an event that has developed such a strong identity of its own. The Open Book Invitational has become synonymous with elite Angus females, progressive genetics and programs that are committed to making a lasting impact. Over the years, countless females from this sale have gone on to become donor cows, show champions, herd-building females and influential genetics in programs across North America. That history gives this event tremendous credibility, but it is the consistency of the offering that keeps breeders coming back year after year.

Chapter 14 is another outstanding representation of that philosophy. The strength of this offering lies not only in the individual lots, but in the depth of quality represented throughout the catalogue. From exciting young heifer calves and powerful bred females to opportunities in proven cow families and genetics with tremendous future potential, there are numerous avenues to find a female that can make a meaningful difference in your program.

We also want to recognize the outstanding group of consignors who make the Open Book Invitational what it is. These breeders have selected from the heart of their programs to bring females that they genuinely believe in, and that confidence is evident throughout the offering. The combination of the Brooking Angus Ranch foundation and this exceptional group of invited breeders makes for a catalogue that deserves serious evaluation.

The timing of this event could not be better. With unprecedented strength and optimism throughout the beef industry, investing in females that can generate productivity, longevity and marketable progeny has never been more important. Whether your goal is to build a foundation female, add another donor prospect, strengthen your replacement pen or simply inject a new genetic direction into your herd, the Open Book offers opportunities to do exactly that.

Most importantly, we encourage you to make the trip to Radville and experience the Open Book Invitational in person. The hospitality, atmosphere and people surrounding this event are every bit as impressive as the cattle. For those unable to attend, our entire Bohrson Marketing team is available to discuss the offering, assist with selections and represent your interests on sale day.

We sincerely congratulate Justin, Tawnie and the Brooking family on another outstanding chapter of the Open Book Invitational, and we thank every consignor for allowing us to be a part of this tremendous event.

We look forward to seeing you October 24th at Brooking Angus Ranch for Chapter 14 of the Open Book Invitational.

Best Regards,
The Bohrson Marketing Team

This year is special and so is this year's donation heifer, we dug deep! Selling out of tickets this year will put us over the $100,000 for giving back directly to the juniors!

This top end heifer will be given to a junior between the ages of 8-18. To win the heifer, an entry needs to be purchased in the name of a junior that is an active member of 4-H or a junior association and is a Canadian citizen. We will draw a name and that lucky junior owns this heifer! 7 more names will also be drawn and they will receive up to $2000 bursary to purchase a heifer (heifer calf or bred heifer) from any breeder, (purebred or commercial) in Canada. Proof of purchase is required. The funds will be transferred directly to the seller of the heifer. Purchase must be made by December 31, 2027.
A maximum of 140 entries for $100 each will be on offer and all of the money raised will be donated directly back to our junior's future herds! You may purchase more than one entry per junior but can only win once. If you have been lucky enough to have won the heifer in previous years you are not eligible to participate.

ENTRIES MUST BE PURCHASED BY OCT. 23/26. WINNERS WILL BE ANNOUNCED ON FACEBOOK LIVE SATURDAY, OCTOBER 24TH BEFORE THE SALE.
To purchase an entry, you can either email us at brookingangus@outlook.com, text/call at 306-861-4155 or PM on Facebook.

Thank you for all the support

$89,000 has been given back to these juniors & junior organizations by funds raised from the last 8 years of donation heifers.

In maintaining the tradition of offering something truly special as our Lot 1, we wanted to offer the choice of two special ladies. We feel they hold the same standard of quality you have come to expect as the features at Brooking. They will be the first heifers to sell out of our $270,000 Brooking TW 4022. Their dam has quickly become one of the more potent donors at Brooking. A maternal sister, Brooking Royal Lass 5156, was last year's high-selling female at $110,000 to ZWT Ranch. Another maternal sister, Brooking Royal Lass 4207, sold for $70,000 to an elite group of breeders in Mexico and Argentina - El Sauz, San Martin, Tres Marias, and Resolano. I feel the type and kind of these heifers are hard to come by and are in an elite league. The kind to build a cow family around and reap the rewards for years to come. Offering 100% interest in the choice of 6185 or 6064, or 50% interest in both heifers, possession is negotiable.

We have a knockout of a heifer as Lot 3. She is a full sister to last year's Lot 1 heifer that sold for $110,000 to ZWT Ranch. We absolutely love this heifer as she is our kind and puts everything together. She is a mirror image of her sister in last year's sale. On individual appraisal, we love her type and kind. We admire her beautiful head, balance, structure, level hip, deep flank, added substance, and strong maternal presence. Her dam is one of our absolute favourite young cows— a true standout. With her attractive, alert expression, broody maternal look, massive rib shape, wide hip, strong udder development, and captivating athleticism, she is nearly without equal.

Brooking Royal Lass 6032 has cow power and future donor written all over her. She is well-made, strong-topped, stout-featured, level-hipped, extremely docile, with added power and substance. She is sired by the $165,000 outcross sire, Musgrave OG 513, who is a leader for growth and power. Brooking Royal Lass 6032 will be the only Musgrave OG daughter to sell in Canada this year. Then top that off, she is out of one of our most potent donors, Brooking Royal Lass 2116. Check out her maternal sisters in lot 1 and 2. Another maternal sister was last year's high-selling female at $110,000, and the year before a maternal sister sold for $70,000. In our 2026 bull sale, a maternal brother, Brooking Next Generation 5158, sold for $50,000 to a group of breeders in Mexico and Argentina. When you combine this lady's power, phenotype, pedigree, and cow family, it all adds up to a promising future.

Brooking Beauty 6010 is a favourite of many that have toured the sale cattle so far. She is stout, square, massive, added substance, and yet has beautiful Angus character up through her head and front end. We wanted to showcase one of our favourite daughters of the $95,000 Brooking Tradition 4064 initial calf crop. We are loving what we are seeing so far. They are stamped consistently like his sire with big square hips, straight wide top, and full into their forerib. With ideal Angus character and head shape. We love the sons in the bull pen. A maternal brother to Brooking Beauty 6010, sold for $52,500 to W Sunrise this past spring, and we also used him in the Brooking breeding program. The dam is a fabulous female that is long and angular made, with a beautiful, massive rib shape and that uncanny Beauty cow family head. The grandam, Brooking Beauty 6051, is most noted as the dam of Brooking Emerald 9179.

Another exciting daughter on offer out of the $270,000 Brooking TW 4022. Brooking Beauty 6027 is an absolute powerhouse with dominating size, dimension, weight, all while maintaining excellent phenotype and maternal look. A rare combination. Her dam is a donor at Brooking and is a member of a tribe of sisters that are dominating in length, power, overall dimension, udder quality, and most importantly, production. The grandam, Brooking Beauty 6051, was an incredible female that we considered perfect in her type and kind, and her extreme quality shines through the generations.

We have a neat combination here, being a daughter of our up-and-coming herdsire, the $270,000 Brooking TW 4022, and then a natural calf out of Greenwood Tibbie 82H. Note that Tibbie 82H is also the dam of Brooking Tradition 4064. The two biggest sire groups at Brooking this year and next are TW and Traditions. Make sure to study the TW and Tradition bull calves that will also be on display sale day. Individually, we love the body, stoutness, substance, and beautiful head that Brooking Greenwood Tibbie 6016 exhibits. This lady is the quality that can win shows in Canada and then be a promising leading donor.

PM Polly 14'26 is exactly the kind of results we had hoped for the operations who invested in Brooking TW. PM Polly 14'26 is perfect in her structure, is long-hipped, sound-moving, straight-topped, great-haired, and is pretty-headed. Again, she is an extremely quiet-natured heifer from Poplar Meadows that would be an awesome show heifer that will be a great cow. I really like this heifer and see a promising future on the horizon for her.

A special sale feature that is right in her design and is as loaded genetically as we possibly could make one. Brooking Rose 6071 is ideal in her structure, is level-hipped, big-ribbed, and has a beautiful traditional Angus head. A flushmate sister was Reserve in her division at the world-renowned show in Palermo, Argentina, for Tres Marias. A full brother was a $47,500 feature in our 2025 bull sale. The dam, Brooking Rose 0083, is one of our most popular cows and is considered one of our most potent donor females. She is an absolute sight to behold. She now is owned in partnership with Flying Pig Ranch and will be one of their headline donors in their new Angus operation.

If there is a sleeper in the sale that many will have that I wish, "I would've bought her", it is this heifer right here. Brooking Beauty 6153 is green and has all of the right pieces and high-quality structure to excel in the days ahead. She is quite natured and would be a fun one to show. Her dam sold half interest on our 10th anniversary sale for $100,000 to Knutson and Rideau, and she is one of our favourite heifers we have shown. I think this heifer will look just like her. A full brother is one of the stoutest bulls in this year's calf crop. The grandam is the dam of donors and is most noted as the dam of Brooking Emerald 9179.

Another March-born heifer that is stylish fronted, has a pretty head, soft-haired, with extra shape to her hip. Her dam, Brooking Rose 9076, is rare in her kind and injects that look into all of her progeny. She is extremely clean in her front end but has an unparalleled amount of stoutness that doesn't normally accompany that much look. Make sure to find her maternal sister sired by External Law in the bred heifer section.

Wow, just a May-born baby that is the youngest heifer in the sale. She is royally bred in the US show world as her dam is considered one of the elite producing Angus show females in the breed and has been quoted as one of the most impressive cows you will lay your eyes on. Full sisters to CSD Annie LU 12004 have dominated in the biggest stages including the 2024 NJAS Reserve Grand Champion owned female, 2024 American Royal Grand Champion female, and 2023 Iowa State Fair Supreme Champion Heifer to name a few. Another full sister sold for $109,500 to Circle M Farms. The dam, Plum Creek Annie LU 9271, also holds the record settling flush at Embryos on Snow for $70,000. If you are in search of a show heifer that is wild-featured, sound, and fresh with the utmost potential, make sure to see this heifer in person. **OFFERING 1/2 INTEREST & POSSESSION NEGOTIABLE**

Rounding off the lineup of heifers in an April-born sweetheart from the Gutzke family. She is kid-friendly and has incredible hair that any future fitter will love to spend hours working on. Gutzke Rosebud 601P has extra substance of bone, is soft-middled, stout-made, and has a nice small head. Her dam has been an excellent producer at the Gutzke Ranch in a fault-free maternal-looking female.

EXPOSED TO BROOKING TRES MARIAS 5150 APRIL 9 - AUGUST 7. ULTRASOUND DUE; MARCH 5, 2027. Brooking Rose 5054 is a special sale feature and is a personal favourite bred in the offering. She has many key essential ingredients needed to be a foundation league female. Physically, she has a maternal presence as she is ideal in her head, long-bodied, with a sweeping rib cage, shows ideal teat size and placement, and has a high-quality phenotype. Genetically, she is impressively stacked in every direction of her pedigree. There are breed-leading females on every single line. Her dam, Brooking Rose 0083, has earned her way to stardom and is now owned with Flying Pig Ranch.

AI BRED TO MUSGRAVE NO LIMIT 663-169 ON APRIL 5.(ULTRASOUND SAFE TO AI). EXPOSED TO GREENWOOD STAND ALONE APRIL 10- APRIL 26, BROOKING BARRICADE 4025 APRIL 26 -MAY 27. We have a massive, made, soggy, ribbed, and extra stout daughter of our resident herdsire, SAV Theory 2914. Theory sat most of the year as the number 1 semen seller for Sire Buyer in the US. Much of his popularity is from repeat buyers. His sons are stout, made, wide-topped, masculine, and muscular. His daughters are docile, extremely easy-fleshing, nice-headed, and have nice udders. Brooking Rose 5101 is possibly one of the most massive ribbed females you can find. Her picture doesn't do her justice. The best idea is to drive to Brooking and see her in the flesh.

EXPOSED TO BROOKING TRES MARIAS 5150 APRIL 9-AUGUST 7. ULTRASOUND DUE DATE: APRIL 5 Brooking Beauty 5092 has been a favourite of visitors to the ranch since she was a baby. She is incredibly massive-made and has a huge sweeping rib cage from her chest that carries into a deep flank. With this wild amount of mass, she still is pretty in her head and holds it high. Her $95,000 sire, KT Jack Smash, did an excellent job and comes as no surprise as his dam is a full sister to the amazing $750,000-valued Coleman Donna 9275. We absolutely love the dam, Brooking Beauty 1030. She is long-bodied, angular-fronted, huge-ribbed, with a beautiful head. The grandam is the famed Brooking Beauty 6051, who is a dam of influence in many pedigrees.

AI BRED TO SAV THEORY 2914 ON MAY 6. EXPOSED TO BROOKING TRES MARIAS 5150 APRIL 6-AUGUST 7 (ULTRASOUND SAFE TO MAY 6 BREEDING DATE) Brooking Beauty 5042 might be the best daughter of LFE Best Answer we have ever raised. She is good-looking, straight-topped, beauty-headed, and has enough size to be a producer. Her dam, Brooking Beauty 2133, was a past Canadian Junior Angus Show Grand Champion female and is really very similar to her daughter, selling with a bit more scope and size and with a beautiful udder. The grandam, Brooking Beauty 333, is the breed matron and highest-income cow at Brooking.

AI BRED TO PF OKLAHOMA 6625 MARCH 27. (ULTRASOUND SAFE TO AI) A great partnership of the Voice and Packett Families has consigned a powerhouse of a female that has the look and performance of a power cow. Grass Roots P Bros Beauty 531 is a good-sized heifer with a deep rib cage and stands on extra substance of bone. Her sire has consistently sired stout, made-marketable cattle. I loved the dam of Dominion at Bar-E-L; she was easy-fleshing and good-looking. The grandam, Brooking Beauty 8062, has been a source of performance and power. She has had the high sellers in multiple operations. Note the early service to PF Oklahoma. A proven calving and maternal specialist.

There will be some people that love this heifer. Brooking Rose 5245 is a smaller-framed female that is really well-balanced with a good phenotype. She also owns that unique look courtesy of her grandam, Brooking Rose 9076. Note this is an April-born heifer on a first-time calver and bred right up for an early calf.

Paternal Brother

SIRE: TRES MARIAS C237 *Centenario*

Introducing Brooking Mr. Tres Marias 5150, who is one of the most unique and high-quality outcross bulls we have ever come across. He is the result of an embryo from one of the supreme Angus operations in the world, Tres Marias. Tres Marias is one of the oldest and most successful Angus operations in Argentina and recognized around the world. We were honoured to acquire their absolute best and favourite genetics. Brooking Mr. Tres Marias 5150 is extremely impressive in person, to say the least. He has true Angus character in his head with a broad muzzle, holds his head high on the move, is extremely sound, is quiet-natured, yet has a high libido, straight-topped, good-footed, easy-fleshing, and stout-made. He had incredible hair in the winter and slicked off in the summer. In one collection, he froze 370 straws of nearly perfect semen. Dr. Rob Stables said it was among the best samples he has collected on a yearling bull. He is sired by Tres Marias Centenario, who was the 2025 Grand Champion bull at the world-famous Palermo show in Argentina. He was also Reserve Grand Champion in Palermo in 2022 as a calf. The dam, Tres Marias B768, is quoted by Francisco Gutierrez as Tres Marias' best and favourite donor. She is sired by Serrucho, a Palermo two-time Grand Champion bull. Her maternal grandsire, Euro, was "sire of the year" several times in Argentina. Brooking Mr. Tres Marias 5150 bred 24 heifers naturally this spring and spent the summer on grass. The picture of him is 30 days after he was pulled from the heifers out on grass. He fleshed incredibly well. It seems everyone is in search of outcross calving ease genetics. Well, here he is.

A) SAV GRAVITY - 3 embryos USA qualified

Brooking Rose 9076 is an absolutely mouth-watering, dream female—the kind that stops you in your tracks. She is truly rare in her kind, combining world-class femininity, power, and a near-perfect phenotype into one stunning package. Without question, we believe she stands among the very best females to ever carry the Brooking prefix. Her dam, Brooking Rose 201, was one of our all-time favourite cows—a remarkable female we sadly lost too soon. She was a full sister to Rose 1019, and many would argue she was our best female. That influence shines through in 9076, who consistently transmits the same elite quality, style, and presence that made her cow family famous. Every calf she raises is stamped with that unmistakable Brooking look—powerful, balanced, and uniquely special.

Brooking Rose 2123 is a new addition to our donor lineup, but anyone who has toured Brooking will no doubt remember her. Sired by the rare and highly popular Brooking Mercury, she is a true power female. While not as angular or refined as some of our other donors, she earns her place in the donor arsenal with her tremendous mass, depth, and substance. Her hip is absolutely massive, with width and dimension that carry deep into her hind leg. She stands on a big, square hoof and boasts a tidy, functional udder, all wrapped in a bold, broody package that commands attention. Note one straw of conventional and one straw of sexed female was used to increase the chances of females.

A)Brooking Mr.Tres Marias 5150 - 3 embryos USA qualified
B)Koupals B&B Inevitable 509 - 3 embryos

Brooking Royal Lass 2116 is an extremely impressive female and has been admired by top seedstock producers from all over this globe. She is long, attractive, and angular in her front end. She holds her head up high naturally on the move, is wide in her hip, and is massive in her body dimension. What really sets her apart is her incredible production in her first few years. Her first daughter sold for $70,000 to a group of breeders in Argentina and Mexico . Her second daughter to sell brought $110,000 to ZWT Ranch in last year's sale. Check out her 4 daughters that highlight this sale; they are potential high sellers. Her first son to sell, Brooking Next Generation 5158, sold for $50,000 to Argentina and Mexico in our 2026 bull sale. We have two exclusive embryo matings on offer. Now just imagine having the first calves to sell in Canada sired by Koupals Inevitable 509. Or by the Mr. Tres Marias outcross sensation. They really could be big time! These will be the only embryos we will sell on Brooking Royal Lass 2116 until this sale next year.

A) Brooking TW 4022 - 5 embryos USA qualified

Greenwood Tibbie 82H is an absolute beast. She is big and powerful, with a huge hip, big bones, easy fleshing, good feet, clean in her upper neck, and is extremely quiet-natured. She is most noted as the dam of the $95,000 Brooking Tradition 4064, who we absolutely love for his initial calf crop. Check out his daughter in this sale, a special highlight of the Evolution sale. We will also have some Tradition-sired bull calves on display at the sale as well. However, most importantly, check out the full sister to these embryos in this sale as Lot 6. She is entered at Farmfair and Agribition.

A) Koupals B&B Inevitable 509 - 3 embryos

Brooking Beauty 4028 is exactly the kind of female we are striving to produce at Brooking. We hope that when you think of the Brooking kind, you imagine this female. She is just a two-year-old female that has never had any special treatment and looks like she could win a show. Or be on the model of the Angus female. We love her Angus character as she is perfect in her head and is angular and feminine in her front end. She is ideal in her phenotype, is easy-fleshing, has an excellent udder, and stands on great feet. We have 5 full sisters, and all are ultra-high-level quality, showing the potency of this mating. The upside potential of these embryos is a new level.

B)Coleman Mendoza 271 - 5 embryos - USA qualified
C) Ellingson Prolific - 4 embryos

Brooking Beauty 8187 sold half interest in the 12th Brooking Open Book sale for $80,000 to KT Ranches. She is visually impressive and one of the unique donor cows you will find anywhere. She has an overwhelming amount of mass, power, volume, and is combined with an attentive, attractive look. Moreover, she has a world-class quality udder and maternal appearance. I consider her to be one of the best Natural Law daughters I have ever seen. It's a big statement when you consider Bar-E-L Erica 74A, Bar-E-L Bride 28C, and Brooking Countess 7077 are all daughters of Natural Law. This cow family is fertile and productive. Her dam, Brooking Beauty 333, has over $1.5 million in revenue, and Brooking Beauty 8187 is forecasted to follow suit. Her most noted son, Rust Forged of Fire, was the Supreme Champion bull at Farmfair International for KT Ranches. Another son, Brooking Chosen One, was a feature in our 2024 bull sale, selling for $45,000. A daughter was a $50,000 feature in last year's Brooking female sale and went on to get the "glitter slap" at Farmfair's junior show. Not to mention many others.

A) Brooking TW 4022 - 5 embryos - USA qualified

Brooking Beauty 2058 is a moderate-framed female that is easy-fleshing, has a good shape to her hips, heavy milking, and has a maternal look. She is the only daughter of Territory out of the famed Brooking Beauty 333 in existence, and we wish we had a lot of them. Her sire, Territory, is one of our favourite recent sires at Schaffs and was the reason why we purchased SAV Theory. The dam, Brooking Beauty 333, is our highest-income cow at Brooking, and she is most known for her ability to raise incredible daughters that are powerful, maternal, and have a high level of quality. Brooking Beauty 2058 is that next-generation donor who'll have progeny on three continents this upcoming year. I feel Brooking TW 4022 will be the perfect blend to incorporate with this stout Beauty cow.

A) SAV Theory 2914 -3 embryos, USA, AUS qualified

Brooking Beauty 8062 is a big and powerful female that is big-topped, deep-ribbed, level-hipped, wide-pinned with extra substance of bone, and has huge fuzzy ears on an ideal Angus head. She has a unique and impressive physical appearance that you can pick her out from across the field. She has been a stellar producer as she had the high-selling bull in three different operations' bull sales in one year. She has also had the second-heaviest weaning bull calf ever to be born at Brooking.

A)SAV THEORY 2914 - 5 embryos
B)Deep Creek Legitimate 203 - 5 embryos
C)Coleman Mendoza 271 - 5 RSF embryos

Brooking Beauty 3068 had an incredible amount of admirers while she was campaigned for two years. She started off as an $80,000 heifer calf to Lindskov's LT Ranch and Duff Cattle Co. in Brooking's 11th Annual Female sale. She went on to win many championships over the following two years, highlighted by First Lady Classic champion female overall breeds, Reserve Grand Champion Angus female at Agribition, Lady Elaine Bracket Champions and many others. Brooking Beauty 3068 is powerfully constructed as she is very wide-made, has massive ribs, is good-looking, and moves soundly with an excellent udder. She is the best of the best, combining Emerald and Beauty 333. This mating is the golden ticket that clicks every time. We have 5 full sisters that are all big-league.

A)Musgrave Primal 874-329 - 3 embryos

Brooking Beauty 1266 is the highest valued female born at Brooking to sell at auction when she sold half interest for $100,000 to Steven Knutson and Rideau Angus. She had a decorated show career, winning many shows in her career. Her young daughters share her high-quality phenotype, big, long-sweeping rib cage, clean neck, and I forecast the same collection of banners to hang on the wall. Her dam, Brooking Beauty 6051, is the dam of many donors and most noted as the dam of Brooking Emerald 9179. We sorted 10 display donors off to showcase by the farm this summer, and by chance, all of them had Beauty 6051 in their pedigree. Musgrave Primal semen recently sold for $6500 per straw and is extremely hard to come by.

A)Brooking Mr. Tres Marias 5150 - 5 embryos, USA qualified
B) Musgrave Primal 874-329 - 5 embryos, USA qualified

Brooking Beauty 1046 is a factory for performance and powerfully constructed Angus progeny. Check out her big, good, and heavy daughter by Brooking TW 4022 in this sale. One thing that I feel shows the potency of a pedigree is when you have multiple flush-mate sisters and they are all exactly the same and of high quality. Brooking Beauty 1046 is one of five full sisters, and they are all donor quality. They are all long-bodied, angular-made, deep-bodied, stout-hipped with beautiful udders and heads. We have only ever sold one of them, and she brought $50,000 to Rancier, Maxwell, and Canadian Donors. We have two exclusive and elite low-birth-sire options on offer. Brooking Mr. Tres Marias will be displayed sale day, and he is a must-use sire. Musgrave Primal is in high demand and exclusive; his last semen sold for $6,500 per straw.

A) Coleman Maternal Balance 3734- 5 embryos

Brooking Beauty 7051 is a new donor to the Brooking lineup, and she earned her position the proper way through production. She has earned elite status with the CAA and has been a herdsire factory, injecting her progeny with added muscle and power, standing on excellent feet, and owning that uncanny Angus character. Brooking Beauty 7051 is the Brooking type of female as she is ideal in her frame size, is easy-fleshing, is as wide as she is tall, has a great udder, awesome feet, and an ideal Angus head. Brooking had two sons at Agribition this year, and one was Intermediate Champion Bull. Coleman Maternal Balance is an awesome-looking bull that will be one of their most popular sires in the years to come.

A) Musgrave Primal 874-329 - 5 embryos, USA qualified

KT Countess 3357 is a royally bred female. She is sired by Brooking Emerald 9179, one of the most proven and popular sires in the breed today. His daughters are incredible as they are good-looking, powerful, and are in the pedigrees of the best up-and-coming cattle. The dam, Brooking Dusty's Countess 9026, was at the side of Countess 7077 when they won Supreme Champion at both Farmfair and Agribition. One of the biggest accomplishments for Brooking Angus Ranch is the $270,000 Brooking TW 4022, who is a son of Countess 9026 and maternal brother to Countess 3357. A full sister to KT Countess 3357 sold for $100,000 to Canadian Donors and Steven Knutson. KT Countess 3357 is long and clean-fronted, deep-bodied, extra stout, great-haired with that attention look known for in the Countess cow family.

D) Brooking TW 4022 - 3 embryos

Bar-E-L Bride 28C was a $100,000 high-selling female at Brooking's 10th anniversary female sale. She was purchased by Coleman Angus, Canadian Sires and Donors, and Brooking Angus Ranch. She is an absolute sight to see. She is massive-made, big-topped, stout-hipped, awesome-uddered, and stands on extra substance of bone. She has many impressive progeny at several operations. Recently at Brooking, her son was the high-selling bull at $140,000 to Arrowsmith Angus and TK Angus. Other highlights include a daughter for $25,000 to Rancho El Nacimiento and a flush sold on Bar-E-L Bride 28C for $75,000 to Voss Angus. We have four exciting sire options available by the breed's most popular sires. Here is your chance to get on board.
